Repressive Measures Adopted by Authorities to Suppress Rioting the Cause.

PARIS, Dec. 3.-Undated dispatches St. Petersburg arriving by of Eydt Kuhnen, East Prussia, give the following information: There is the greatest excitement among the sailors and the authorities have ordered the disarmament of the warships. The offleers, fearing a mutiny, acceded to the demand of the sailors for the release of a workman who was arrested while dis-tributing revolutionary proclamations.

Panic Among People.

The military authorities are preparing repressive measures. Heavy forces of artillery are arriving at the capital, caus-ing a panic among the population. Officers Refuse to Issue Orders.

Officers recently held a meeting at Tsarskoe-Selo and decided to refuse to order their men to fire if called on to repress disorders.

At the War department this afternoon it was declared that the outbreak of troops in the Baltic provinces was confined to reservists, who were insisting on their immediate discharge. The officials refused to furnish details.

DENVER Colo., Dec 2.—Paul Morton, president of the Equitable, is responsible for the abandonment of Gore canyon by the United States reclamation service, which intended using the canyon for a

Always Friend of Morton.

D.-H. Moffatt was instrumental in having Paul Morton appointed president of
the Equitable. Since Mr. Morton was a
little child Mr. Moffatt has been his friend
and has aided him in many ways. To
show his appreciation of what Mr. Moffatt did for him, he is said to have used
his influence at Washington to have the
Gore canyon case dismissed.

Turide Stown of Suit

Inside Story of Suit.

The inside story of how the suit was ended was not carried in the dispatches from Washington, and Denver railroad men have been wondering where the strong influence in favor of the Moffatt road originated. That is now explained.

Canyon Was Necessary.

Mr. Moffatt says Gore canyon was required by the Moffatt road to make it a short line between Denver and Sait Lake. It would have cost \$4,000,000 or \$5,000,000 prore to build the road if the company and to lay list tracks above the water line of the proposed reservoir site, and would have made the railway twenty-two miles longer.

the Question to Point.

LONDON, Dec 1.—Evidence of the intention of the Unionist party to force the question of home rule for Ireland to the front in the impending election struggle is shown in a message sent by Premier Balfour to a Unionist candidate in a bye election, in which the Fremier says he hopes the electors 'will set an example of determined resistance to those home rule proposals which as we have recently heard from the leader of the opposition, once again threaten the country.' The political gossibs are basey with cabinet-making for the Liberal party. The names suggested are interesting as forecasting the return to office of Sir Charles Dilke, who has been for twenty years without a portfolio.

The Daily Telegraph somewhat curiously predicts that the secretary for Ireland in the Liberal cabinet will be Sir Authory MacDonnell, at present Under Secretary to the Lord-Lieutenant of Ireland.

London club, presided over by Laily Aberdeen. The Embassador said

We never had a serious quarrel with England in the long course of our history, and sincerely trust we never shall. A shadow unfortunately has fallen over the two nations in the last few years, the causes for which it is not difficult to discover by those who read what daily is printed. The fact that I am your guest this evening is a welcome proof that the forces at work are desirous of depoling that shadow of ennity.

"The overwhelming majority of Englishmen and Germans wish a life of peace and harmony and regard the idea of a serious quarrel as a piece of criminal folly. There is no real cause for antagonism, commercial or otherwise. It is only an atmosphere of filfeeling artificially created.

"The German Government will greet with screen satisfaction any movement tending to further good relations and will glady respond to any friendly demonstration in England."

SEOUL, Korea, Dec. 2.—The Emperor has directed that the highest posthumous honors be accorded Min Yung Whan, who committed suicide as a protest against the Japanese protectorate. The body will be given a state funeral.

Ex-Premier Chao and several minor officials have committed suicide in consequence of the action of Japan. On Min Yung Whan's body were found letters addressed to the foreign ministers begging them to interfere on behalf of Korea.

Memorialists continue to gather but are not dispersed. Gendarmes and police are everywhere and alert to prevent a further everywhere and alert to prevent a furthe

There is some disposition here to connect the death of Min Yung Whan with the withdrawal of the American Legation as the Koreans had looked upon America as the most likely nation to interfere, and when they realized that they had been entertaining false hopes they became keenly disappointed.

The Christian missionaries are greatly concerned over their future work in Korea, fearing that the new condition of affairs may hove some influence upon their efforts.

### FEAR A MASSACRE

Jewish Community in Odessa Look for a Catastrophe.

for a Catastrophe.

ODESSA, undated, sent by special courier by way of Pedwalogramica, Galacia, Dec. 2.—
This dispatch is sent at the request of the Jewish community, which fears a frash massacre by the local garrison. It is asserted that a proclamation is being circulated in almost every regiment, calling on the soldiers to exterminate the Jews and to destroy the newspaper offices in revenue for groundless accusations against the troops of their participation in massacres and pillage and in the projection of rowdies. This is exciting the population against the army.

The Jews assert that the officers deliver anti-Semitic speeches in the barracks after removing the Jewish soldiers, and Gov-Gen. Kalbaurs himself has confessed that the officers are burning for revenge on the Jews and that he is unable to guarantee the preservation of order.

In view of the fact that city city is entirely cut off from St. Petersburg and thus is altogether in the hands of the local authorities, the Jewish community implores all civilized nations and their Governments to take all possible measures at St. Petersburg to prevent a catastrophe which may exceed anything that has pet occurred.

# FAVORS COLLECTION OF FEE FROM APPLICANTS

Report of Civil Service Examination Contains This Recommendation.

WASHINGTON, Dec. 3.-The twenty econd annual report of United States Civil Service commission, made public today, contains a recommendation that Congress should authorize the collection of a fee from applicants for examination for the government service. Should this authority be given the report states the commission will issue a manual giving such detailed information regarding the examination as will make it unnecessary for the applicant to make special pre paration for the examination in som-civil service school or institution.

The amount of the fee it is suggested should be a small one. The argument in its favor is that it would eliminate from the examinations the large number of persons who take them out of curiosity, or to secure a higher rating on the eligible list through re-examination. It is stated that 150,000 persons were examined last year, \$0,000 of whom secured positions. During the year the number of competitive positions increased from 154,005, to 171,005.

Fee Should Be Small.

#### Recent Order of President.

Touching on the order of President Roosevelt of November 17 last, giving authority to heads of departments to separate ansemployee from the service without notice for delinquency or misconduct the report says.

The new rule makes the authority to make removals which existed as fully order the former as under the present practice, nor affects the jurisdiction of the Civil Service commission merely making some changes in the procedure in making some changes in the procedure in the case of re-foval."

Important Reform.

The order of Postmaster General Cortelyou providing for the retention of fourth class postmasters during satisfactory service is regarded by the compission as distinctly the most important administrative reform effected within the past year. The fourth class postmasters constitute the largest class of employees selected without examination of any kind. For many years these positions have been treated as political sooils and appointments made to them with slight regard to the best interests of the seregard to the best interests of the ser

Defect in Service.

Defect in Service.

Commenting on the destrability of pasitions in the Gavernment service, the commission says the separations from the service amount to about 10 per cent annually and further:

"The great defeat in the federal service today is the lack of apportunity for ambittons, well educated young men. All of the higher nesitions are outside of the competitive classified service, and no system has been established by which these who have distinguished themselves in the service can be promoted to the more important offices and at the same time enjoy reasonable security of fenare. There is not sufficient inducement for the most capable men to enter the examinations, as they can do better by seeking employment in large corporations, trusts and other institutions, where they can in time command much higher salaries than they can ever hope to secure in the Government service."
